

Australia-Oceania :: Solomon Islands

Introduction :: Solomon Islands

Background:

The UK established a protectorate over the Solomon Islands in the 1890s. Some of the most bitter fighting of World War II occurred on this archipelago. Self-government was achieved in 1976 and independence two years later. Ethnic violence, government malfeasance, and endemic crime have undermined stability and civil society. In June 2003, then Prime Minister Sir Allan KEMAKEZA sought the assistance of Australia in reestablishing law and order; the following month, an Australian-led multinational force arrived to restore peace and disarm ethnic militias. The Regional Assistance Mission to the Solomon Islands (RAMSI) has generally been effective in restoring law and order and rebuilding government institutions.

Economy :: Solomon Islands

Economy - overview:

The bulk of the population depends on agriculture, fishing, and forestry for at least part of its livelihood. Most manufactured goods and petroleum products must be imported. The islands are rich in undeveloped mineral resources such as lead, zinc, nickel, and gold. Prior to the arrival of The Regional Assistance Mission to the Solomon Islands (RAMSI), severe ethnic violence, the closing of key businesses, and an empty government treasury culminated in economic collapse. RAMSI's efforts to restore law and order and economic stability have led to modest growth as the economy rebuilds.

Transnational Issues :: Solomon Islands**Disputes - international:**

since 2003, the Regional Assistance Mission to Solomon Islands, consisting of police, military, and civilian advisors drawn from 15 countries, has assisted in reestablishing and maintaining civil and political order while reinforcing regional stability and security

Trafficking in persons:

current situation: The Solomon Islands is a source and destination country for local and Southeast Asian men and women subjected to forced labor and forced prostitution; women from China, Indonesia, Malaysia, and the Philippines are recruited for legitimate work and upon arrival are forced into prostitution; men from Indonesia and Malaysia recruited to work in the Solomon Islands' mining and logging industries may be subjected to forced labor; local children are forced into prostitution near foreign logging camps, on fishing vessels, and at hotel and other entertainment venues; some local children are also sold by their parents for marriage to foreign workers or put up for "informal adoption" and then find themselves forced into domestic servitude or forced prostitution

tier rating: Tier 2 Watch List - The Solomon Islands does not fully comply with the minimum standards for the elimination of trafficking; however, it is making significant efforts to do so; the government has formed an ad hoc Solomon Islands Trafficking-in-Persons Advisory Committee and established an informal victim assistance referral procedure for law enforcement; the government did not pass the necessary implementing regulations for anti-trafficking legislation enacted in 2012, preventing authorities from using the new law to prosecute alleged traffickers; the government continues to rely on civil society or religious organizations to provide limited services to victims; the Solomon Islands is not a party to the 2000 UN TIP Protocol (2013)
