

East & Southeast Asia :: Thailand

Introduction :: Thailand

Background:

A unified Thai kingdom was established in the mid-14th century. Known as Siam until 1939, Thailand is the only Southeast Asian country never to have been taken over by a European power. A bloodless revolution in 1932 led to a constitutional monarchy. In alliance with Japan during World War II, Thailand became a US treaty ally in 1954 after sending troops to Korea and later fighting alongside the United States in Vietnam. Thailand since 2005 has experienced several rounds of political turmoil including a military coup in 2006 that ousted then Prime Minister THAKSIN Chinnawat, followed by large-scale street protests by competing political factions in 2008, 2009, and 2010. Demonstrations in 2010 culminated with clashes between security forces and pro-THAKSIN protesters, elements of which were armed, and resulted in at least 92 deaths and an estimated \$1.5 billion in arson-related property losses. THAKSIN's youngest sister, YINGLAK Chinnawat, in 2011 led the Puea Thai Party to an electoral win and assumed control of the government. YINGLAK's leadership was almost immediately challenged by historic flooding in late 2011 that had large swathes of the country underwater and threatened to inundate Bangkok itself. A blanket amnesty bill for individuals involved in street protests, altered at the last minute to include all political crimes - including all convictions against THAKSIN - triggered large protests in Bangkok. In late 2013 demonstrations led by former opposition deputy leader SUTHEP Thaugsuban called for the establishment of an unelected "people's council" to replace YINGLUCK's government and reform the Thai political system. YINGLUCK dissolved parliament in December 2013 and proposed a new election for February 2014. Thailand's Constitutional Court invalidated the election in March 2014 on grounds that it was not completed within one day throughout the nation. Thailand has also experienced violence associated with the ethno-nationalist insurgency in Thailand's southern Malay-Muslim majority provinces. Since January 2004, thousands have been killed and wounded in the insurgency.

Economy :: Thailand

Economy - overview:

With a well-developed infrastructure, a free-enterprise economy, generally pro-investment policies, and strong export industries, Thailand achieved steady growth due largely to industrial and agriculture exports - mostly electronics, agricultural commodities, automobiles and parts, and processed foods.

Unemployment, at less than 1% of the labor force, stands as one of the lowest levels in the world, which puts upward pressure on wages in some industries. Thailand also attracts nearly 2.5 million migrant workers from neighboring countries. The Thai government in 2013 implemented a nation-wide 300 baht (\$10) per day minimum wage policy and deployed new tax reforms designed to lower rates on middle-income earners. The Thai economy has weathered internal and external economic shocks in recent years. The global economic recession severely cut Thailand's exports, with most sectors experiencing double-digit drops. In late 2011 Thailand's recovery was interrupted by historic flooding in the industrial areas in Bangkok and its five surrounding provinces, crippling the manufacturing sector. The government approved flood mitigation projects worth \$11.7 billion, which were started in 2012, to prevent similar economic damage, and an additional \$75 billion for infrastructure over the following seven years. This was expected to lead to an economic upsurge but growth has remained slow, in part due to ongoing political unrest and resulting uncertainties. Spending on infrastructure will require re-approval once a new government is seated.

Transnational Issues :: Thailand

Disputes - international:

separatist violence in Thailand's predominantly Malay-Muslim southern provinces prompt border closures and controls with Malaysia to stem insurgent activities; Southeast Asian states have enhanced border surveillance to check the spread of avian flu; talks continue on completion of demarcation with Laos but disputes remain over several islands in the Mekong River; despite continuing border committee talks, Thailand must deal with Karen and other ethnic rebels, refugees, and illegal cross-border activities; Cambodia and Thailand dispute sections of boundary; in 2011 Thailand and Cambodia resorted to arms in the dispute over the location of the boundary on the precipice surmounted by Preah Vihear temple ruins, awarded to Cambodia by ICJ decision in 1962 and part of a planned UN World Heritage site; Thailand is studying the feasibility of jointly constructing the Hatgyi Dam on the Salween river near the border with Burma; in 2004, international environmentalist pressure prompted China to halt construction of 13 dams on the Salween River that flows through China, Burma, and Thailand; 140,000 mostly Karen refugees fleeing civil strife, political upheaval and economic stagnation in Burma live in remote camps in Thailand near the border

Refugees and internally displaced persons:

refugees (country of origin): 83,317 (Burma) (2012)

IDPs: undetermined (resurgence in ethno-nationalist violence in south of country since 2004) (2011)

stateless persons: 506,197 (2012); note - about half of Thailand's northern hill tribe people do not have citizenship and make up the bulk of Thailand's stateless population; most lack documentation showing they or one of their parents were born in Thailand; children born to Burmese refugees are not eligible for Burmese or Thai citizenship and are stateless; most Chao Lay, maritime nomadic peoples, who travel from island to island in the Andaman Sea west of Thailand are also stateless; stateless Rohingya refugees from Burma are considered illegal migrants by Thai authorities and are detained in inhumane conditions or expelled; stateless persons are denied access to voting, property, education, employment, healthcare, and driving

Trafficking in persons:

current situation: Thailand is a source, transit, and destination country for men, women, and children subjected to forced labor and sex trafficking; victims, who are most often from neighboring countries, especially Burma, and also China, Vietnam, Russia, Uzbekistan, and Fiji, migrate to Thailand in search of economic opportunities but are forced, coerced, or defrauded into labor or commercial sexual exploitation; forced laborers are exploited in fishing, low-end garment production, domestic service, and some are forced to beg; some men forced to work on fishing boats have reportedly been kept at sea for years; sex trafficking of Thai and migrant children and sex tourism remain significant problems; Thailand is a transit country for victims from North Korea, China, Vietnam, Pakistan, and Burma destined for exploitation in third countries, including Malaysia, Indonesia, Singapore, Russia, the Republic of Korea, the US, and Western European countries

tier rating: Tier 2 Watch List - Thailand does not fully comply with the minimum standards for the elimination of trafficking; the government investigated more trafficking-related cases but prosecuted and

convicted fewer trafficking offender in 2012 than it did in the previous year; widespread corruption among law enforcement personnel creates an enabling environment for human trafficking; local authorities lack an awareness of the elements of trafficking and are deficient at identifying and protecting victims; weak law enforcement, inadequate human and financial resources, and fragmented coordination among regulatory agencies in the fishing industry contributes to overall impunity for exploitative labor practices in this sector; no labor recruitment companies have been punished for forced labor or trafficking allegations (2013)

Illicit drugs:

a minor producer of opium, heroin, and marijuana; transit point for illicit heroin en route to the international drug market from Burma and Laos; eradication efforts have reduced the area of cannabis cultivation and shifted some production to neighboring countries; opium poppy cultivation has been reduced by eradication efforts; also a drug money-laundering center; minor role in methamphetamine production for regional consumption; major consumer of methamphetamine since the 1990s despite a series of government crackdowns
